Profile

I'm T.Anilkumar, highly motivated and hardworking looking for a responsible role in a reputable organization. I am seeking a role in a company where I can contribute my ideas and be mentored towards a successful career

Education

Bachelor of Technology: 2021 – 2024 |
GMR Institution of Technology India
Specialization: Information Technology
• Cgpa: 7.46

Projects

ARP Spoofing Using MITM Attack, Using KALI and Bettercap Utility technologies

- is a technique where an attacker intercepts network traffic between devices on a local network. By sending fake ARP messages, the attacker makes devices believe that their MAC address is associated with another device's IP address, redirecting traffic through the attacker's machine.
- Also bypassing http and https protocols, DNS Spoofing, Code Injection

Simple Ecommerce Web App using AI tools and deployed in GITHub

- Developed a Simple E-commerce Website with features for product browsing, secure checkout, and user account management. The site allows customers to view products, add items to a cart.
- Implemented responsive design for a seamless experience across devices, along with basic administrative functionality for product and order management. Built using modern web technologies such as HTML, CSS, JavaScript, and a backend framework such as Flask, Node.js.

Achivements and Internship

1st prize in Volley ball at Mandal Level

Android App Development, Lenient cloud pvt

Fitness logbook App

During my internship in LENIENT CLOUD private limited, I had the opportunity to work on cutting-edge projects in the field of Android development.
